

MISSOURI BOATING STATISTICS & DROWNINGS

2023 Edition

2022 Statistics

Department of Public Safety
Missouri State Highway Patrol

Introduction

This booklet is published by the Missouri State Highway Patrol as an aid to persons who are interested in recreational boating crashes and accidental drowning incidents occurring in the state. It contains information which provides a comprehensive look at statewide crashes and accidental drowning incidents as experienced in 2022.

The Missouri State Highway Patrol is the central recreational boating data collection agency for the State of Missouri. The Patrol investigates all recreational boating crashes occurring in the state and either investigates or gathers data on accidental drowning incidents occurring in state and private waters.

Interesting Statistics

Here at a glance are some interesting statistics found in this booklet:

- *In 2022 there were 17 persons killed and 77 persons injured in recreational boating crashes in the state of Missouri. This was 11 fewer killed and 45 fewer injured than in 2021. There was a decrease of 22% in total crashes statewide (152) compared to 2021 (195).*
- *In 2022 there were 152 total crashes including 80 property damage only, 56 injury, and 16 fatal.*
- *"Failed to keep proper lookout" was the leading contributing circumstance for all crashes followed by "water conditions (rough, chop, current, etc.)." "Impairment (alcohol/drugs)" was known to have been a contributing circumstance to six crashes statewide.*
- *"Inexperience of the operator" crashes resulted in the death of one person. This was 5.9% of the total persons killed in crashes.*
- *Of all crashes reported statewide, 75% (114) occurred during the months of May through August.*
- *Most crashes occurred on Saturday (59) and Sunday (39) and most (110) occurred between noon and 8:00 p.m.*
- *Of all crashes reported statewide, 63.8% (97) involved only one watercraft. All sixteen fatal crashes involved only one watercraft.*
- *Of the 178 boat operators involved in crashes, 97 had no prior boater education.*
- *In 2022, there were 25 persons killed in accidental drowning incidents occurring in state waters, twenty-one fewer than in 2021. The Missouri State Highway Patrol also investigated two accidental drowning incidents that occurred on private property and an additional three that were flood/ other related.*
- *Most drownings occurred on Saturday, Sunday, Monday, and Tuesday with six on each respective day. Most drownings occurred during the months of June (6) and July (7).*

It is hoped that the information in this booklet will be of value to you. Certainly it is the most comprehensive look available at statewide crashes and accidental drowning incidents in Missouri.

TOTAL.....	16	75	121	212	

Alcohol Involvement

Drinking and Crashes - Whether or not a person has been drinking cannot always be determined at the scene of a crash. Because of the time lapse from the moment of occurrence until an officer arrives at the scene to make the investigation, a person's condition concerning drinking can change a great deal. In cases where the individual may have been removed to a hospital, doctor's office or funeral home, his/her condition may never be determined.
